

# Train Order

Division One NCR

Volume 38, Issue 5    January 2013

## Cab Signals

Fred Lux

I must start my column this month with an apology. It totally slipped my mind that we had changed the January meeting date from the 25<sup>th</sup> to the 18<sup>th</sup>. So, what started out as an issue of the Train Order being published on schedule is ending up as an issue that is a week late. One New Year's resolution shot already. Be sure that your calendar is up to date and you have Division marked for this coming Friday, January 18.

We will be back on track with a regular agenda this month. Don't forget to bring something for the Tricks and Tools segment of the meeting. Also, looking back at Steve Kellogg's past columns, I see that show and tell is any freight or passenger car. Lets see if we can fill the table.

The program this month is being presented by Mike Anteau. He is going to be discussing building turnouts with the FastTracks System. It should be an interesting program.

Don't forget that Division is this Friday, January 18. Rather than posting the agenda separately, I have included it in the newsletter. Hope to see you there.
